## UBICQUIA® BRAND AND STYLE GUIDE

### UBICQUIA® CORPORATE LOGO

The Ubicquia® corporate logo is an important and immediate representation of our brand. It is a fundamental corporate asset that must be used consistently. The corporate logo and all the product logos should never be typeset or redesigned.

#### **Primary color logo**

The primary color logo should only be used on a White or Light Gray background.

#### **Reverse full color logo**

The reverse full color logo can appear only on Ubicquia® Dark Blue or a Matte Black background.

#### **Positive mono logo and reverse mono logo**

The two mono logo signatures can be used in black and white backgrounds and in any background as long as the integrity of the logo is not diminished. Always look for backgrounds that allow good contrast.

**THIS GUIDE PROVIDES A DOWNLOAD  
LINK FOR ALL BRAND ASSETS!**

STYLE GUIDE

CLEAR SPACE

The clear space is an area where other elements must not encroach into, keeping the logo free of any other text, graphics or other visual interferences.

THE CLEAR SPACE IS DEFINED BY THE MEASURE OF "X"

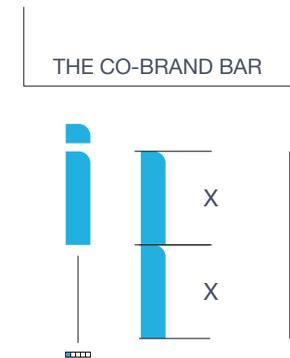

## UBICQUIA® BRAND AND STYLE GUIDE

### PARTNER CO-BRAND

In partner co-branded communication, the clear space must be used to establish proportions and distances between logos of partners, ensuring that both logos are of equal visual weight. To help balance the sizes and proportions of the logos, a separation line is used: the co-brand bar. The co-brand bar has twice the height of measure “x,” one-fifth the thickness of the letter “i,” and must be positioned at the vertical center of the Ubicquia logo.

The partner's brand must be limited to the height indicated by the size of the letter “i.” Use the size of the Ubicquia logo as a visual reference and scale the partner's logo accordingly.

**The use of partner co-brand has to be approved by marketing.**

TWICE THE HEIGHT OF  
MEASURE “X” AND  
ONE-FIFTH THE THICKNESS  
OF THE LETTER “i”.

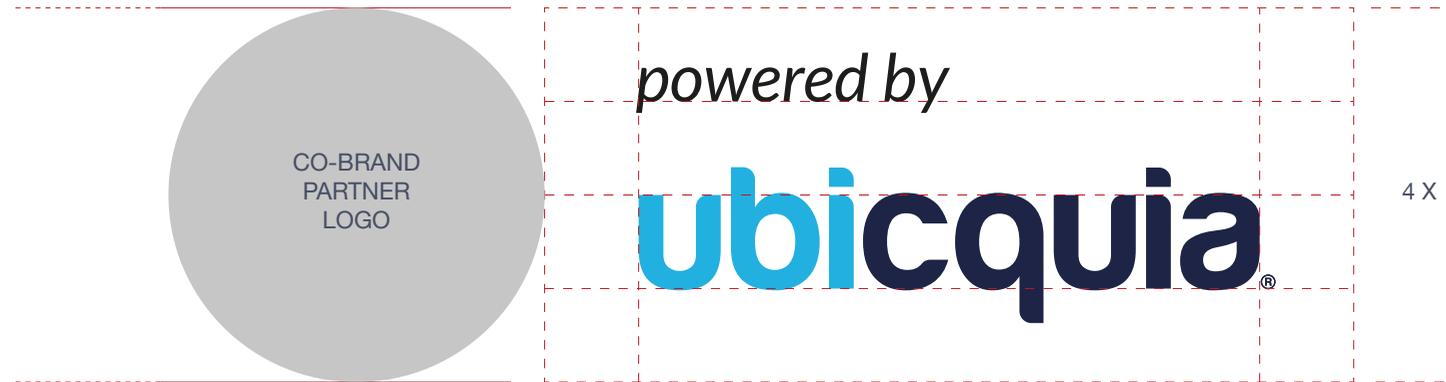

## UBICQUIA® BRAND AND STYLE GUIDE

### PARTNER CO-BRAND “POWERED BY”

The clear space must be used to establish proportions and distances between logos of partners for co-brand relationships. The logos must be visually arranged so that they maintain a balanced proportion of size and contrast.

In this case, the partner's brand must be limited to the height indicated by the clear space. It is important to balance the sizes and contrasts in such a way that the two logos work together harmoniously and proportionally. For this, use the size of the Ubicquia® logo as a visual reference and scale the partner's logo accordingly.

STYLE GUIDE

CORPORATE TAGLINE

Ubicquia has two corporate messages that translate our vision, deliveries and promises: a short one that shows our differentiation in a straight and concise message, and a long one highlighting Ubicquia's goals and vision for the future.

simply connected simply smart™

THE TAGLINE ONE

making the world smarter,  
safer and more connected™

THE TAGLINE TWO

## UBICQUIA® BRAND AND STYLE GUIDE

### CORPORATE TAGLINE 01

The Ubicquia® tagline is a short and clear explanation of our offering, highlighting two keywords that resonate in every fiber of our brand, products, and culture: connected and smart.

Just like the Ubicquia® logo, the tagline is an important corporate asset, and goes beyond what our products do, presenting a more aspirational message.

Please do not translate the tagline and always keep it in English.

simply **connected** simply **smart**™

THE TAGLINE SUMMARIZES WHAT WE DO

## UBICQUIA® BRAND AND STYLE GUIDE

### CORPORATE TAGLINE 01

Just like the corporate brand, our tagline follows the institutional color palette. The correct use of the color balance and its application on the determined backgrounds, will guarantee the consistency of our message.

## UBICQUIA® BRAND AND STYLE GUIDE

### UBICQUIA® LOGO AND THE CORPORATE TAGLINE 01

It is important to maintain a correct proportion between the logo and the tagline. When the tagline is applied close to the logo, the clear space area is used to define four possible positions between them. As shown on the right, the tagline can be used with the same width as the logo or double the width.

# UBICQUIA® BRAND AND STYLE GUIDE

## COLOR PALETTE

Our solutions for a safer, smarter and more connected world address issues of sustainability, economy and well-being that are of great importance to communities. We measure air quality, warn against energy waste, and encourage the use of clean energy. Therefore, we have incorporated new colors that will help our brand tell that story: Ubicquia® Lime Green and Ubicquia® Dark Green.

These colors should be used with attention in communications that involve themes of benefits to the environment, sustainability and green economy. It's important to follow the proper ratio of use between the colors.

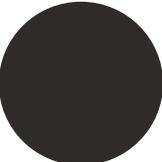

### MAIN PALETTE

UBICQUIA® BLUE  
CMYK 71/8/4/0  
Pantone 306 C / U  
RGB 34/176/225  
HEX #22B0E1

UBICQUIA® DARK BLUE  
CMYK 100/92/42/43  
Pantone 2767 C / U  
RGB 30/36/69  
HEX #1E2445

Matte Black  
CMYK 68/62/58/72  
Pantone P 179-16 C / U  
RGB 46/43/42  
HEX #2E2B2A

Light Gray  
CMYK 8/5/3/0  
Pantone 5315 C / U  
RGB 238/240/245  
HEX #EEF0F5

### GREEN PALETTE

UBICQUIA® LIME GREEN  
CMYK 40/0/80/0  
Pantone 367 C / 374 U  
RGB 174/204/83  
HEX #AECC53

UBICQUIA® DARK GREEN  
CMYK 100/10/50/50  
Pantone Black 3992 C/U  
RGB 0/91/89  
HEX #005B59

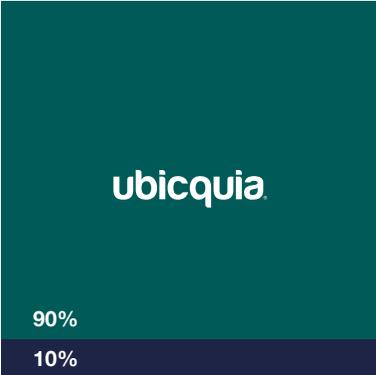

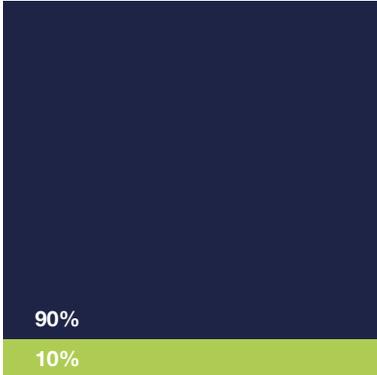

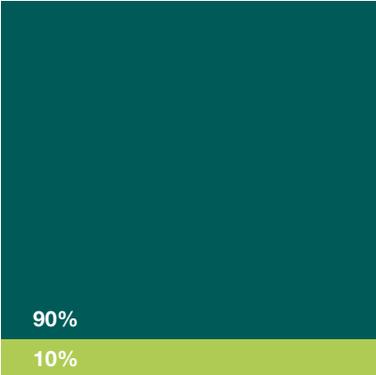

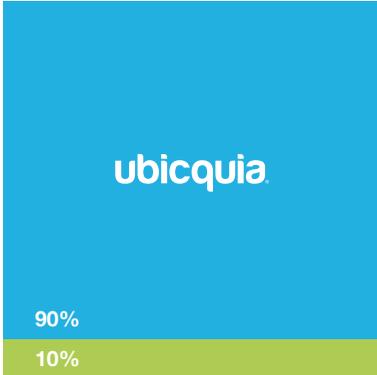

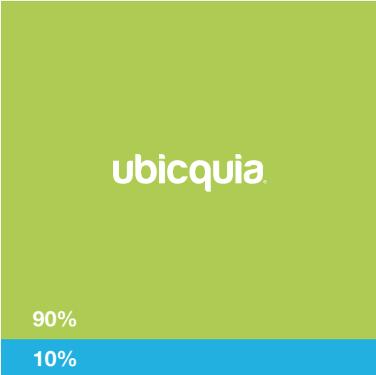

# UBICQUIA® BRAND AND STYLE GUIDE

## COLOR PALETTE

These colors should be used with attention in communications that involve themes of benefits to the environment, sustainability and green economy. It's important to follow the proper ratio of use between the colors.

The Ubicquia® Blue and Ubicquia® Lime Green are both light colors and the contrast can be a problem if they are used in text. However, they offer a fresh and joyful combination when used in details and associated with white.

The Ubicquia® Dark Blue and Ubicquia® Dark Green offer an elegant and sober combination, albeit with low contrast. The use of white is important to give light to the layout.

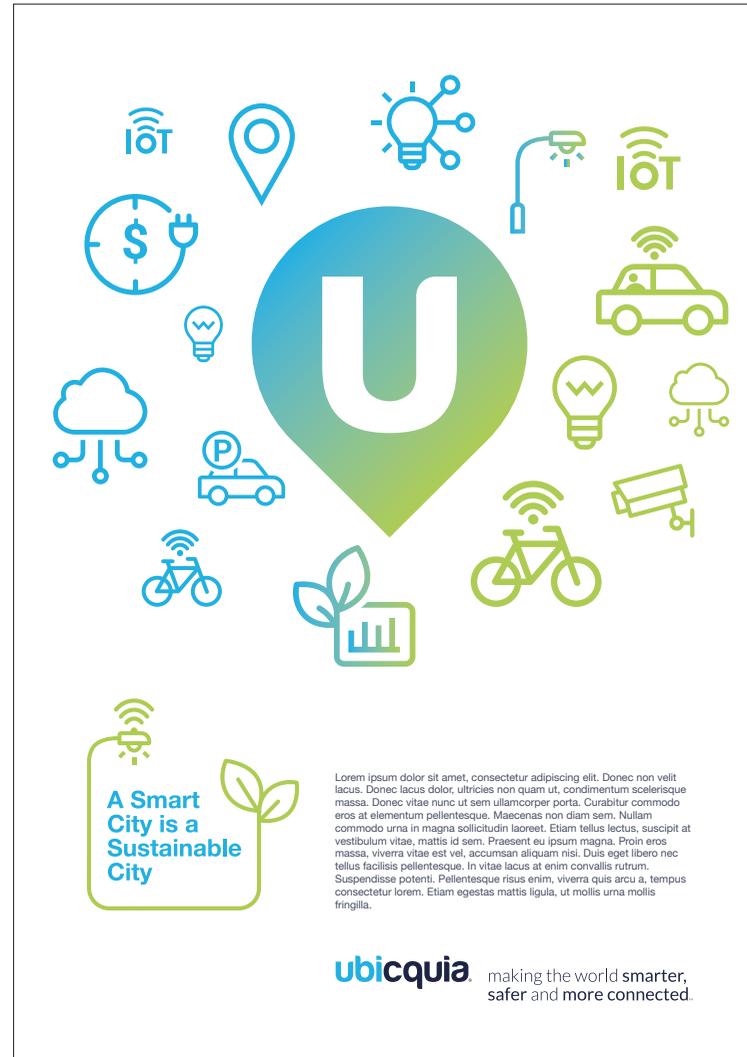

Suggested ratio for the colors.  
But this may vary depending on  
the layout area.

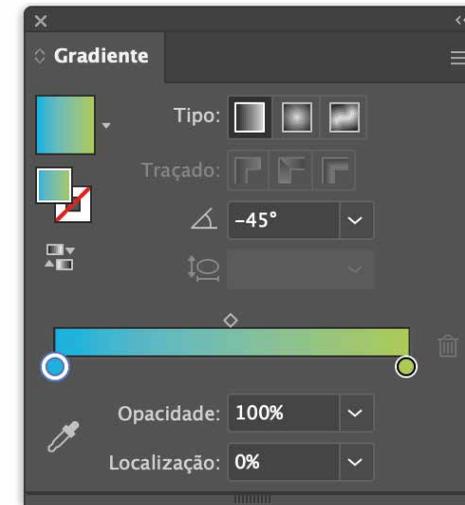

## UBICQUIA® BRAND AND STYLE GUIDE

### UBIPIN AND FRESH GRADIENT

The UbiPin can be used with a gradient of the Ubicquia® Lime Green and Ubicquia® Blue when the communication addresses issues related to the green economy. Whenever this gradient is used, the UbiPin must be applied on a white background.

### HOW TO APPLY THE GRADIENT

UBICQUIA® BLUE  
CMYK 71/8/4/0  
Pantone 306 C / U  
RGB 34/176/225  
HEX #22BOE1

UBICQUIA® LIME GREEN  
CMYK 40/0/80/0  
Pantone 367 C / 374 U  
RGB 174/204/83  
HEX #AECC53

## UBICQUIA® BRAND AND STYLE GUIDE

### UBICQUIA® LOGO ON DIFFERENT BACKGROUNDS

There is an important connection between the logo and the tagline and this is reflected in the color balance. Like the full color logo, the tagline uses the alternation between Ubicquia® Dark Blue and Ubicquia® Blue. With the mono logo, the tagline follows the Black and White of the positive and negative of the logo.

- 1 - Primary color logo on White background;
- 2 - Reverse color logo on Matte Black background;
- 3 - Reverse mono logo on Ubicquia® Blue background;
- 4 - Reverse color logo on Ubicquia® Dark Blue background;
- 5 - Positive mono logo on White background;
- 6 - Reverse mono logo on Black background;
- 7 - Primary color logo on Light Gray background
- 8 - Positive mono logo on Yellow (extended palette) background;
- 9 - Reverse mono logo on Orange (extended palette) background.

## UBICQUIA® BRAND AND STYLE GUIDE

UBICQUIA® LOGO ON IMAGES

It is difficult to find images that offer enough contrast for the good visualization of the two blues of Ubicquia® logo. The full color logo should only be use on light color backgrounds that offer contrast. Opt for the priority use of the blue and white or the white version of the logo, always choosing the place with the best contrast. Avoid using the logo over visually busy backgrounds.

## UBICQUIA® BRAND AND STYLE GUIDE

### THE UBIPIN

UbiPin is part of our brand expression and used in presentations, communication materials and digital media, will help consolidate Ubicquia®'s presence in the market.

UbiPin is derived from our UbiVu cloud based platform and represents our active Ubi deployments. It is used to designate and highlight Ubicquia®'s presence in a simple, concise, and immediate manner.

UBICQUIA® BRAND AND  
STYLE GUIDE

THE UBIPIN AND COLOR BACKGROUND

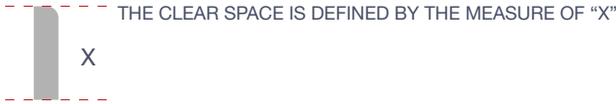

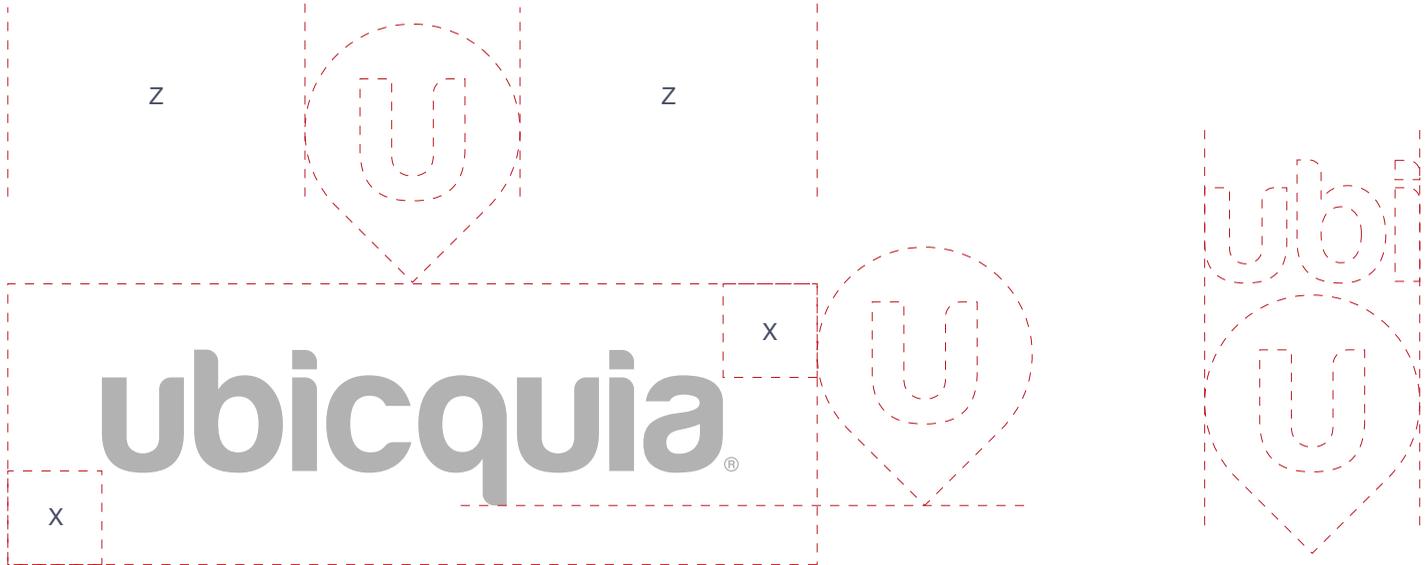

In UbiPin the “U” is a hollow element and its filling is done by the background color. The pin is the graphic form to be filled in by the same colors specified for the Ubicquia® brand palette.

UBICQUIA® BRAND AND  
STYLE GUIDE

THE UBIPIN AND UBICQUIA® LOGO

For the combined use of the Ubicquia® logo and the UbiPin, two versions are provided. In those cases, the proportion between the elements (logo and UbiPin) is fundamental to establish a hierarchy. However, when they are far enough apart, the two elements gain freedom in relation to their positions and proportions.

VERTICAL

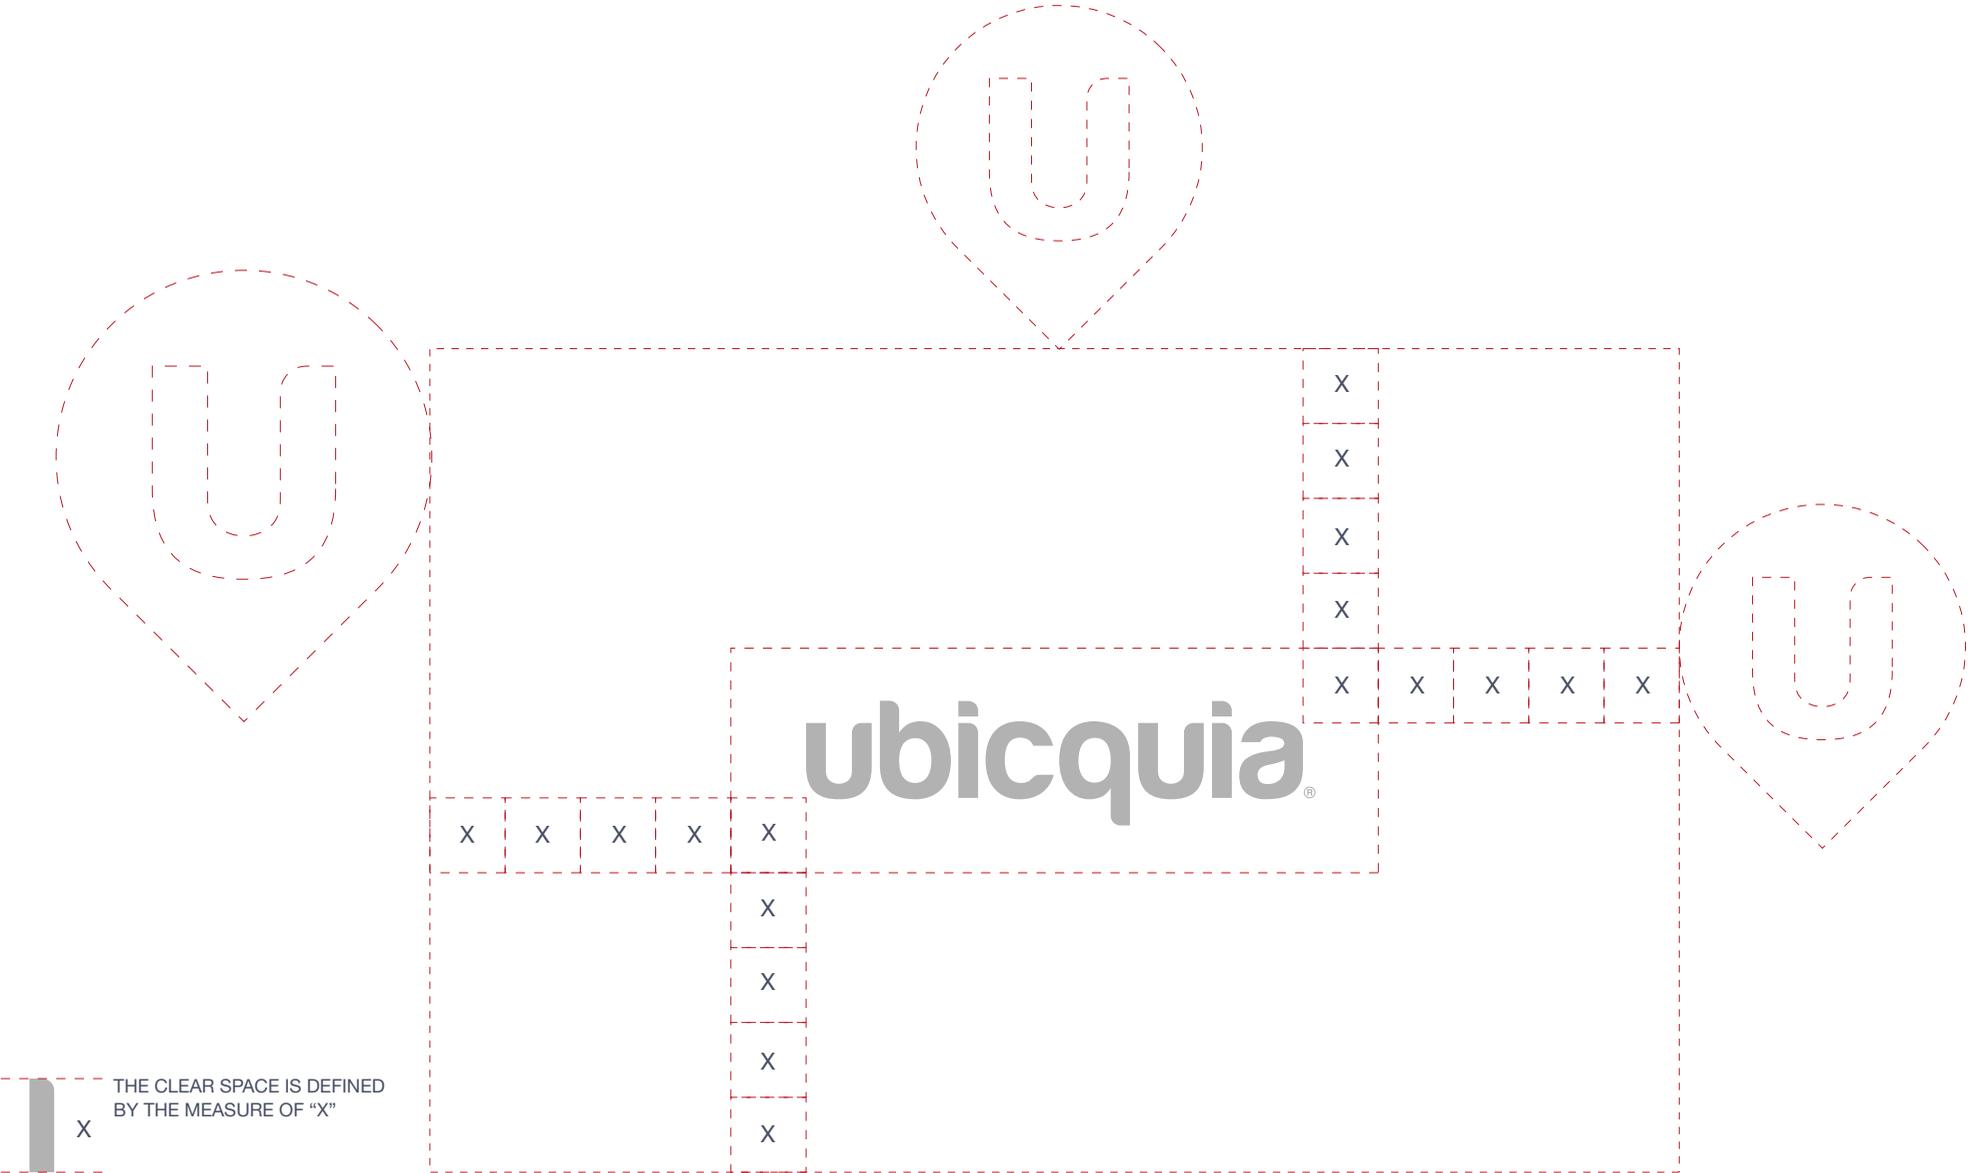

HORIZONTAL

UBICQUIA® BRAND AND  
STYLE GUIDE

THE UBIPIN AND UBICQUIA® LOGO

When they are far enough apart, the two elements gain freedom in relation to their positions and proportions. By increasing the constraint area by 5 times the UbiPin has freedom of positioning and size.

### UBICQUIA® PARTNER CERTIFICATION LOGOS

Partners will be certified in different technologies to earn badges upon certification completion (training, test, support).

There are three levels of partnerships, with each of these levels corresponding to a number of shields depending on the certified product lines and solutions:

- Ubicquia® Express Partner: UbiCell®;
- Ubicquia® Advanced Partner: UbiHub®, UbiGrid®, UbiSmart®;
- Ubicquia® Master Partner: UbiVu®, UbiHub®, UbiGrid®, UbiSmart®, UbiMetro™.

## UBICQUIA® BRAND AND STYLE GUIDE

### DONT'S

To maintain Ubicquia® identity consistency the logo, colors, types and the artworks must be used as is and not be altered in any way. Here are some examples of what should not be done.

- 1 - Don't change the logo and tagline's colors;
- 2 - Don't change the logo orientation;
- 3 - Don't display the logo with background color not previously specified;
- 4 - Don't change the tagline configuration;
- 5 - Don't disproportionately scale the logo and add special effects or outline;
- 6 - Don't change the positioning determined for the UbiPin and the logo;
- 7 - Don't redefine the logo's proportions and don't segment products by color;
- 8 - Don't use uppercase letters for the corporate logo or products logos;
- 9 - Don't redefine the logo proportions.

CORPORATE TYPEFACES

The HELVETICA NEUE type family must be used in main texts of client-facing sheets and presentations. All variations of HELVETICA NEUE can be used except condensed versions.

**ubigrid DTM+** Enable transformer health analytics for future failure prediction and prevention with monitoring technology

The UbiGrid™ DTM+ extends transformer monitoring technology to enable real-time transformer condition and health analytics for future failure prediction and prevention. This new sensor gives you a clearer picture of your distribution transformers than ever before to drive down SAIDI and the economic impact of outages while reducing the O&M costs of maintaining these critical assets. And no need to deploy another communications network, as this sensor leverages either public or private LTE networks already in place.

**UbiGrid™ DTM+ Aerial Distribution Transformer Monitor Plus**

Real-time monitoring and alarming of secondary side power metering **plus** oil level, temperature and pressure, **plus** pole tilt and vibration monitoring.

- Transformer Range of sizes: up to 200kVA
- Immediate commissioning: LTE backhaul
- Power metering leveraging Rogowski Coils technology
- Pressure sensor with instantaneous pressure reading
- Tilt and shock detection
- Sag/Swell voltage detection: adjustable alarm thresholds
- Power surge protection
- Location GPS latitude and longitude fix
- Bar code asset tracking of transformer nameplate
- OTA firmware updates
- Wireless Data Communication (LTE CAT-1)
- 99% performance availability uptime, cloud hosting\*

EXTRAS AND REFERENCES

Communication is a living thing in which new layers are added in a dynamic work in progress. The guidelines presented here aim to establish new paths for graphic communication materials.

Industry's First Streetlight Edge AI & WiFi 6 Access Point

# ubihub AP AI

**ubicquia** simply connected simply smart.

**ubihub AP AI**

**Integrates seamlessly with existing streetlight infrastructure**

**Unique Antenna Design**  
 UbiHub's 12 integrated antennas allow the maximum coverage possible from a WiFi and mesh offering standpoint. The antennas reduce the effect of RF interference on every device that is connected to the access point. Their high performance dual-band and omnidirectional transmission ensures real-time capability to support high device density settings.

**ubihub AP AI**

Dimensions: 386mm / 15.2", 206mm / 8.2", 70mm / 2.75"

**Low profile form factor for improved wind performance and low street visibility**

**Analytics**

- Dual 4K cameras and four digital microphones
- Automated set-up & configuration of AI models
- Ability to run simultaneous AI models on each view

**Applications**

- PoE interface available for 3rd party devices
- Interoperable APIs to integrate with existing systems
- Actionable insights and visualizations on UbiVu®

**WiFi 6 Access Point**

- Efficiently manage up to 1024 client connections
- Tri-band (2x5GHz, 1x2.4GHz) 4x4 MU-MIMO
- 12 integrated omnidirectional antennas

**Mesh Network**

- Mesh up to 4 units per ISP connection
- Dynamic load balancing of mesh network
- Dedicated channels for max mesh bandwidth

**Cloud Management**

- OTA updates and maintenance releases
- UbiVu® platform used to manage and visualize assets
- Advanced AI, WiFi and lighting controls

**Simplified Installation**

- Powered through the readily available NEMA socket
- Install assist app available
- Less than 15-minute installation time

© Ubiquiti LLC 2023. All rights reserved. Patent Pending. | 5

**ubihub AP AI**

**Ubiquiti's comprehensive cloud-based GUI, UbiVu, provides a rich set of capabilities for discovery, template-based provisioning, orchestration, and operational monitoring and management of assets.**

**Cloud Managed Platform**

**UbiVu®**  
 The UbiHub™ AP AI devices are managed through UbiVu®, which sits in the cloud. UbiVu® is the one-stop-shop integrated dashboard to manage and visualize all Ubiquiti® products.

**UbiVu® Offers**

- OTA firmware updates
- Reports and configuration set-up
- Remote troubleshooting
- User access management
- Overall map of deployment with hierarchical device view
- Alert setting functionality
- Overview of key performance metrics and status

**Node Activator App**

- Scans the device label for fast installation in minutes
- Connects to UbiVu® and registers the device
- On-site confirmation of basic UbiHub™ functionalities to limit visits to the pole

## UBICQUIA® BRAND AND STYLE GUIDE

### HOW THE FILES ARE NAMED

The brand archives are organized according to a logic that shows the name of the company or product, the visual orientation of the logo, the colors and the file extension:

1. The name: Ubicquia®; UbiGrid®; UbiSmart® etc.
2. When the visual orientation is not explained, the logo is in the default: “horizontal” version. The alternative is presented as “stack”.
3. Here are shown the combinations and chromatic alternatives of the visual identity: “BLUE DARKBLUE”; “BLACK”; “BLUE WHITE” etc.
4. Files in extension .png and .eps..

UBICQUIA® BRAND AND  
STYLE GUIDE

PRODUCT BRANDING

Products are certainly one of our most important points of contact for the branding strategy. The Ubicquia® logo needs to show just once and must be carefully applied in such a way as to highlight the company's values.

## UBICQUIA® BRAND AND STYLE GUIDE

### PRODUCT LABEL

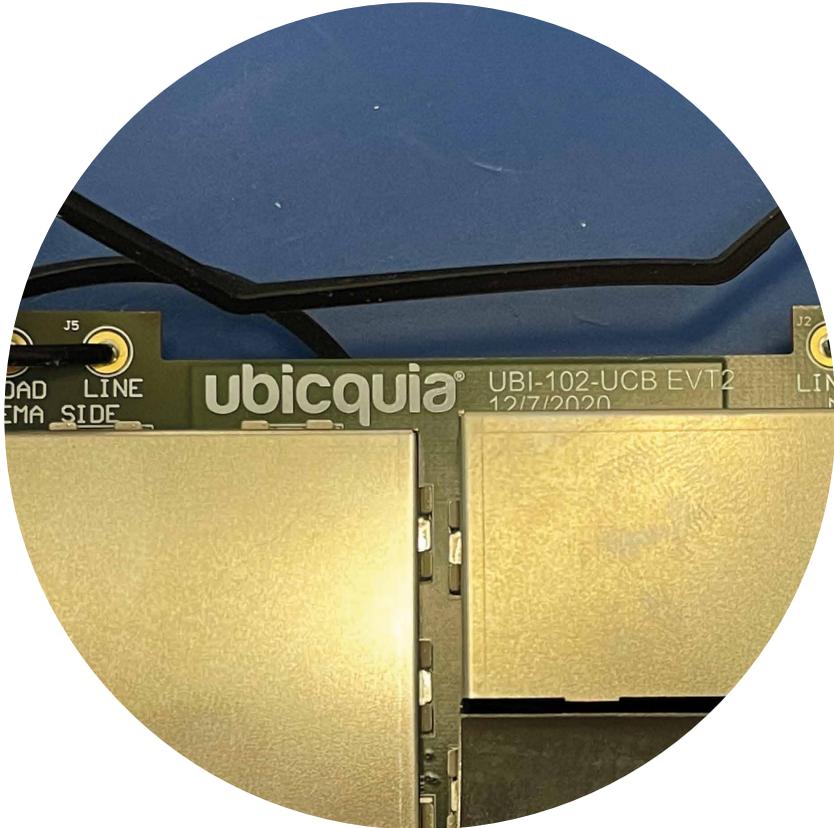

The graphic design of Ubicquia® products labels must comply with certain printing rules and restrictions. Each piece of information presented there has its function and must be represented in specific typographic colors and sizes.

UBICQUIA® BRAND AND  
STYLE GUIDE

INTERNAL ELECTRONIC OR  
MECHANICAL PARTS

The Ubicquia® logo needs to be molded  
and/or printed at least once on every major  
housing and electronic board. The size is  
relative to the part but its minimum size is  
20mm.

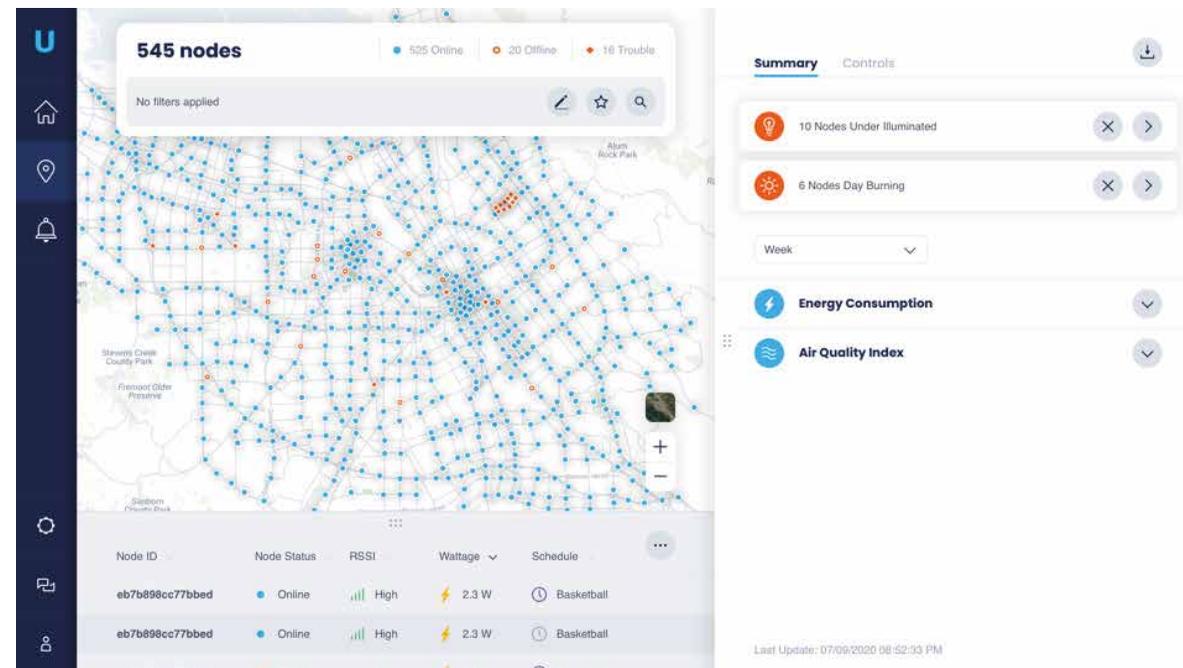

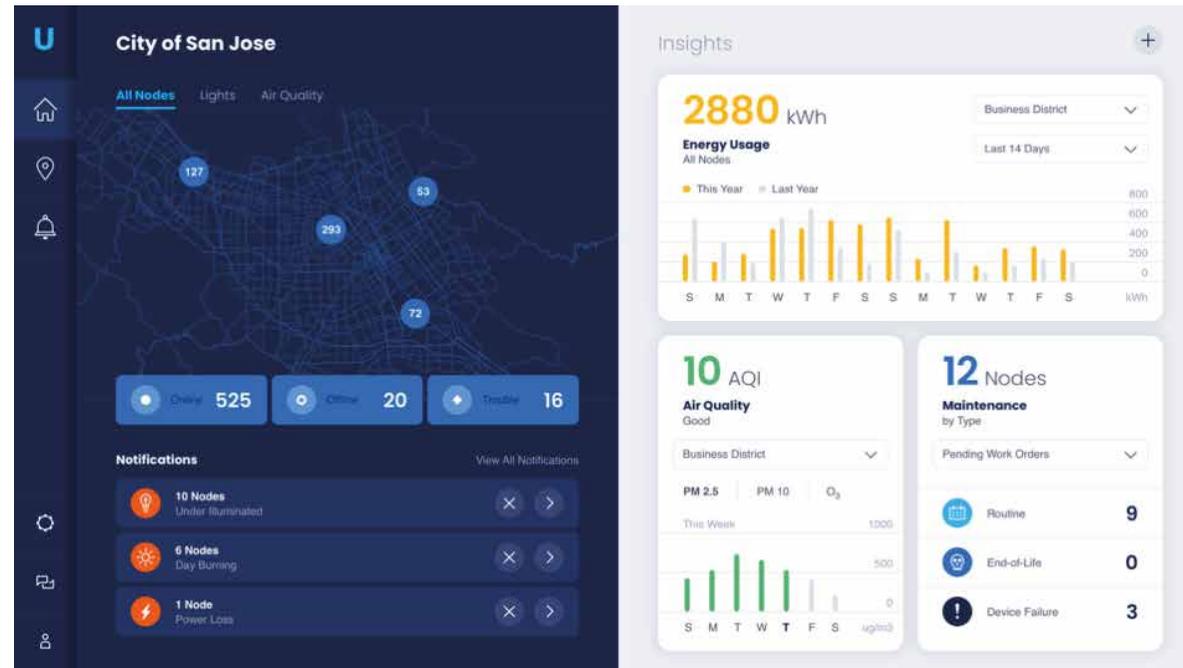

## UBICQUIA® BRAND AND STYLE GUIDE

### UBIVU® DIGITAL BRANDING

The UbiVu® interface unfolds the design guidelines for the digital universe, maintaining the brand consistency that exists in all points of contact.

The colors, icons, types, and all graphic assets create a visual platform that, when combined with the extreme usability of UbiVu®, will result in a brand experience to be replicated in other apps.

## UBICQUIA® BRAND AND STYLE GUIDE

### IMAGERY

Photos are a fundamental element for the communication of the Ubicquia® brand. In addition to the product images, the environment photographs help to highlight the presence of Ubicquia® technology in everyday life. These are dynamic scenarios that bring our products closer to reality, showing how Ubicquia technology is transforming our cities and our lives. Therefore our imagery must have its own point of view, capturing the eye through different angles, lighting, and textures. They need to catch the eye and transmit moments full of joy and life.

Other important photos are those that seek to show our day-to-day in the office, closing deals, designing projects, and working as a team. These images must also carry our vibrant and positive way of being.

The royalty free image banks are a good source for choosing these photos, but some care must be taken to ensure consistency in the way we express ourselves. Therefore, we have prepared a small guidance of Do's and Don'ts to assist in this selection.

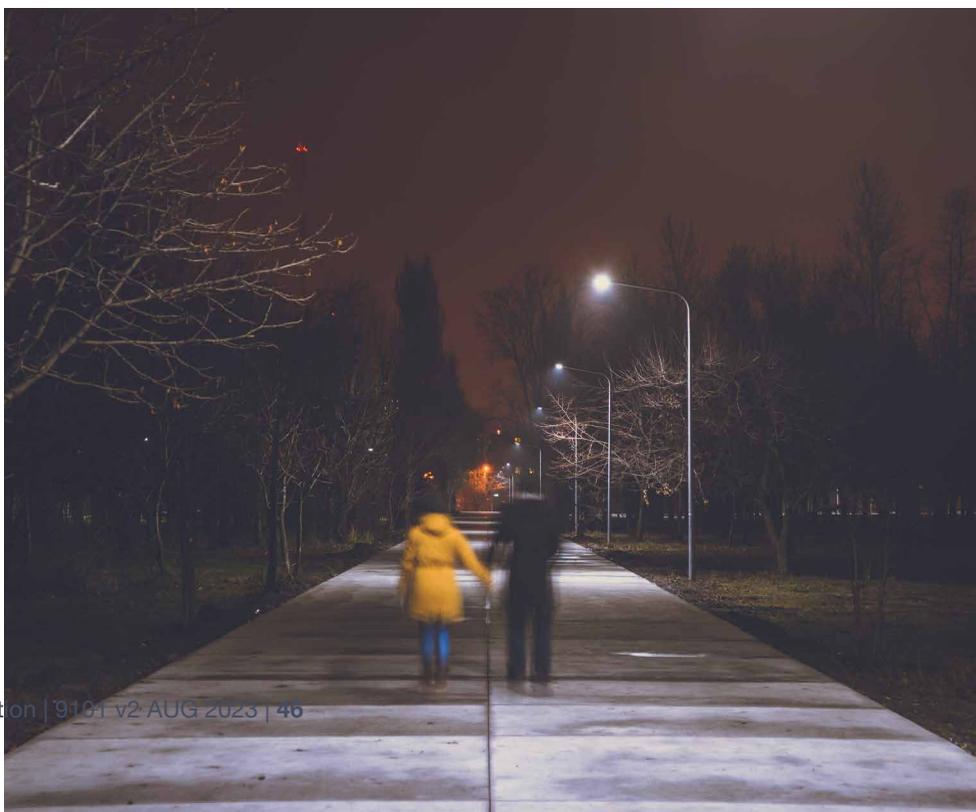

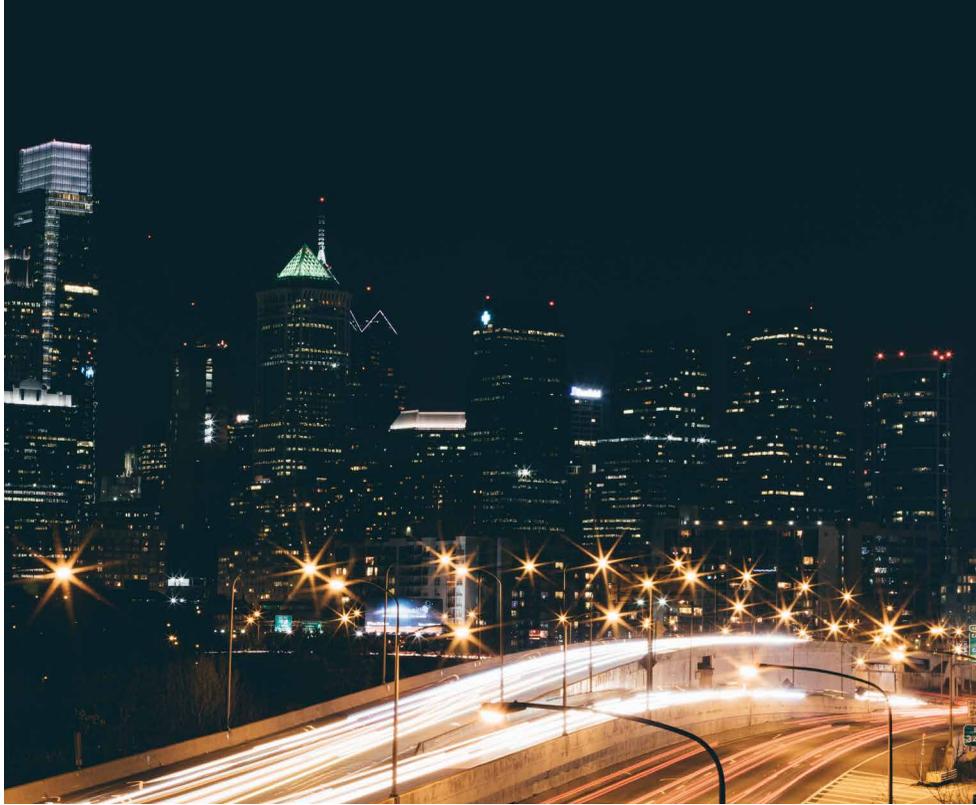

## UBICQUIA® BRAND AND STYLE GUIDE

### IMAGERY

#### DO's ✓

- Higher viewpoint images will enhance the integration of product perspectives with the background
- Electric Poles and Lightining Poles are important visual elements in the images
- Prioritize images that portray people accustomed to the everyday life of streets, parks, and roads
- Nighttime photos should enhance the lighting and brightness of streetlights in cities
- Choose photos that enhance the colors of the environment
- Prioritize images from America and Latin America
- Look for different situations, different angles and bright lighting effects
- These images should evoke joy, freshness and youthfulness

## UBICQUIA® BRAND AND STYLE GUIDE

### IMAGERY

#### DONT's

- People or elements of great prominence in the foreground of the photo
- People looking at the camera
- Urban lighting equipment that does not support Ubicquia technology
- Photos with a lot of visual information and distraction
- Photos of famous sights that takes our attention away from Ubicquia's goal
- Avoid major historical elements
- Scenes that look very theatrical
- Images that treat technology fantastically, combining digital illustration with photography

ubicquia®
