

INTELLIGENCE, BUILT IN.

A Next-Generation Photocell

SIMPLIFIES INVENTORY WITH UNIVERSAL FIT

Stock and manage fewer SKUs with a single device that fits every fixture.

ENGINEERED FOR PERFORMANCE

Built to the highest industry standard and most discerning engineering specs.

PROVEN RELIABILITY AND SECURITY

Trusted by some of the largest cities and utilities in the US.

Turn on Future-Ready Intelligence

Users can activate AI-powered streetlighting control capabilities at any time, including:

Remote power and dimming schedules based on GPS position, manual schedules, or daylight sensing

Real-time alerts on tilt, power loss, day burner, flickering lights, voltage sag and swell

Remote diagnostics to pinpoint the source of faults and avoid unnecessary truck rolls

Asset ownership confirmation
