

Intelligent Enterprise Solution

**Unlock** visibility that  
powers success

# Every Second of Downtime Costs More Than Ever

## Poor Power Quality Stops Everything

Businesses run on precision. But voltage fluctuations, harmonics, and momentary outages can shut down equipment, disrupt operations, and waste hours of labor. You can't prevent what you can't see; most facilities only learn there's a problem after it's too late.

## Shift From Unexpected to Predicted

### Protect your people, productivity, and equipment

#### Savings

Reduce downtime, inefficiency, and power factor penalties. Identify and fix hidden issues, such as harmonics and imbalances, to reduce waste and energy use.

#### Performance

Run at peak efficiency, improving energy use, and maintaining optimal productivity to confidently manage and expand operational capacity across every site.

#### Reliability

Maintain consistency when it matters most. Prevent shutdowns and interruptions that throw schedules, production, or service delivery off track.

#### Safety

Protect people, assets, and equipment — including EV charging assets — from electrical risks, vandalism, and theft that can cause failures or unsafe operating conditions.

# Data That Protects Operations

360° visibility. AI-powered insights. Monitored 24/7.

## Transformer & Power Quality Monitoring

Extends grid-edge visibility to detect asset stress, power quality issues, and outages before they cause failures or downtime.

## Multi-Site Visibility

Brings all site data into one dashboard for improved operations, with benchmarking and automated reporting, such as Energy Star Portfolio Manager.

## Proactive Alerts and Analytics

Delivers tailored alerts and expert insights to identify root causes, prevent issues, and ensure compliance.

## Utility Collaboration

Identifies where and why problems occur to accelerate utility coordination and resolution.

## Managed Service Support

Provides 24/7 monitoring and expert support, so you can stay focused on your core business.

## A PARTNER WHO ILLUMINATES WHAT'S NEXT

**Turning insight into action,  
so you can focus on what  
matters most.**

Ubicquia brings clarity, intelligence, and connection to the world of critical infrastructure.

We believe reliability begins with visibility — and that the right partner doesn't just deliver data but helps make sense of it. Built on trust, transparency, and a relentless focus on customer success, we empower enterprises to protect operations, optimize energy use, and strengthen resilience.

With Ubicquia, you gain more than information; you gain a partner who illuminates the path forward, helping you see, predict, and prevent what's next.
